## **Medicines**

**Exporter guidance**: The majority of medicines, including over the counter items, are considered EAR99 and do not require a BIS CCAT. Additionally, medicines, except for non-NSAID analgesics, cholinergics, anticholinergics, opiods, narcotics, benzodiazapenes, and bioactive peptides, are authorized for export and reexport to Iran under a general license from OFAC. For specific instructions regarding OFAC's general license please see:
